

Human Weather Conditions

Lesson #1

Just as the weather changes, people can be 'sunny one day, stormy the next'. Being able to gauge conditions is an important skill for us to have. It may be possible to present this lesson, especially to younger children, using the example of the flood, its aftermath and the promise of God to Noah. Good did come from the destruction.

St. Paul could be a better example: he was all about the storm at first. He did not just persecute Jewish Christians, he hunted them down. After his conversion experience, the Son came out for him.

We have been told and shown by Jesus' example, the specific conditions by which we should live. It is up to us to 'walk as a child of the light'.
